

Infusion Series® Platinum Edition® Coffee and Tea Combo

The Infusion Series coffee and tea equipment platform provides Best Result in the Cup™ performance with the proven industry knowledge to deliver the lowest cost of ownership

ITCB-DV

The exclusive Peak Extraction® Sprayhead features grooves that capture minerals and isolate the directional stream holes which then spray the whole coffee bed, providing full saturation and the ideal uniformity of extraction.

Brews into all BUNN iced tea dispensers (except TDS-5),1.9 to 3.8L airpots, thermal carafes and can accommodate BUNN® ThermoFresh® 1.0 Gallon Baseless Servers.

Dual Voltage (DV) models can operate at 120V/15 amp or 120/208-240V/17 amp

Prop 65 Warning for California Residents

This product can expose you to chemicals including Bisphenol A (BPA), which is known to the State of California to cause birth defects or other reproductive harm.

Nitron₂® Cold Draft

Keg-free design delivers authentic Cold Brew taste without need for a complex brewing process

Achieve a nitro infusion with no kegs to change-out, store, clean, or sanitize. Various models available using either two 1-gal (3.8L) concentrate BIBs or BUNN refillable containers (for Ball-valve models), two 1/2-gal (1.9L) concentrate BIBs or a single 1-gal concentrate BIB (for Scholle models) that staff are already familiar with and each BIB yields multiple gallons of finished drinks

The Nitron Experience: No milk or sugar needed! Patented in-line gas infuser produces up to 3 minutes of cascading micro-bubbles*, resulting in a nitro cold brew crowned with a smooth, silky stout-like head that tastes distinctively creamy with a velvety soft mouthfeel

Outfit the standard and nitro taps with separate beverages - your choice of cold brew coffee, iced coffee, or iced tea - all from one slim, 10-inch wide countertop design

At a rate of one 16oz drink per minute, can dispense 60 drinks before exceeding 41°F

*based on product concentrate used
