

### **G Series VH Grinder**

Users have 340° of grind resolution on the "no-click" selection dial, giving them complete freedom when dialing-in their ideal grind particle size.

Available in 1lb, 2lb, and 3lb versions, the GVH features hoppers that are sleek, tinted, and incredibly durable

Versatile design allows grinding into bags, cans, and cups and other containers to meet a multitude of customer needs

Fast grinding – one pound in approximately 30 seconds – maximizes speed of service

340° dial resolution for precise tuning of grind particle size

Ergonomic clamp for holding smaller size bags and containers in place for hands-free operation

Easy to use cleaning lever for complete removal of coffee from grind chamber ensures the customer gets all the coffee ground for them

Precision Rockwell 65C hard burrs provide consistency, grind after grind

Bag switch prevents grinding before bag/container is in place

Four-year warranty on grinding burrs

## Multi-Hopper Series Grinder and Storage System

An intuitive, portion-controlled coffee grinding system that handles multiple bean varieties

Portion-controlled for the right amount of coffee every time, with 3 batch sizes per hopper

Convenient front-loading hoppers are easy to clean and store individual coffee grind weight profiles

Choice of black or stainless finish

# BrewWISE® intelligence means the Smart Funnel® manages the grinding and brewing process from start to finish:

Grinder adjusts the grind time for each batch to deliver just the right grind volumes

Grinder communicates coffee batch size and coffee name to the Smart Funnel during grinding process

BrewWISE brewer reads the information in the Smart Funnel, adjusts the recipe, and brews a flavorful batch of coffee

USB Port on the CBA for Software importing/exporting

#### **RACK AND HOPPER**

Store and display coffee varieties and promote fresh ground coffee program

Hoppers with locking lids serve as storage containers when not in the grinder (lock for lids sold separately)

2 Position Storage System

## Weight Driven Series Grinder

Weight-based, portion-control for the right amount of coffee every time with three batch sizes

Unparalleled grind weight accuracy

Front-loading, removable hopper is easy to clean

# BrewWISE® intelligence means the Smart Funnel® manages the grinding and brewing process from start to finish:

Grinder communicates coffee weight to the Smart Funnel during the grinding process

BrewWISE brewer reads the information in the Smart Funnel, adjusts the recipe, and brews a flavorful batch of coffee

USB for software importing/exporting"

Precision grinding burrs consistently deliver the specified quality grind, and have a four year warranty

### **Portion Control Series Grinder**

With three batch sizes per hopper

#### G9-2T DBC

Two hoppers hold 6lbs each of regular and decaf or specialty beans

Stores individual coffee grind profiles

# BrewWISE® intelligence means the Smart Funnel® manages the grinding and brewing process from start to finish:

Grinder adjusts the grind time for each batch to deliver just the right grind volumes

Grinder communicates coffee batch size and coffee name to the Smart Funnel during the grinding process

BrewWISE brewer reads the information in the Smart Funnel, adjusts the recipe, and brews a flavorful batch of coffee

#### FPG-2 DBC

Two hoppers hold 3lbs each of regular and decaf or specialty beans

Accommodates up to 8" tall French Press or funnel for drip-style brewer

Multi-batch setting allows users to specify a French Press brew size or grind enough coffee into a funnel to brew larger amounts of drip-style coffee

French press for display purposes only, not available for purchase

### **Portion Control Series Grinder**

Coffee grinding systems with simple switch control operation

#### G9T HD - 1 HOPPER

Single hopper holds 9lbs

Accommodates larger brew funnels

Precision Rockwell 65C hard burrs provide consistency, grind after grind

#### LPG - 1 HOPPER

Hopper holds 6lbs

Low profile height and narrow footprint conserves countertop space

Easy access on back for grind weight adjustment

Precision Rockwell 65C hard burrs provide consistency, grind after grind

#### LPG2E - 2 HOPPERS

3lbs capacity per hopper

Precision Rockwell 65C hard burrs provide consistency, grind after grind

## MATCH THE GRIND TO BREW TIME

The brewing or water contact time with the coffee grounds is primarily determined by the grind size and bed depth. A longer brew time is required for the water to penetrate the larger grind particles. The recommended brewing contact times for each grind size are shown here.

General Guidline: The finer the grind, the shorter the time.

#### **BREWER CYCLE TIMING**

The brew cycle delivery time of a coffee brewer assists in determining the recommended coffee grind to produce a quality cup. Experimenting with a coarser or finer grind will help operators discover the preferred coffee flavor profile.

#### **BED DEPTH**

The ideal depth of the coffee bed in the brew basket is 1-2 inches (2.5-5cm) regardless of the volume of brew. If a coffee bed is less than 1 inch (2.5cm), the water may move through it too quickly and under-extract. Water moving too slowly through a bed depth of more than 2 inches may cause over-extraction and a bitter taste.
