

FAST CUP®

Bean-to-Cup

Great Coffee Fast!

bunn.com/fast-cup

Meet the Fast Cup

Profitable high-performance bean-to-cup coffee brewer that features an intuitive touch-screen experience, drip-style flavor profile, and accommodations for larger cup sizes - ground, brewed and delivered to your customer in approximately 30 seconds.

The Fast Cup Experience

1. Users select their favorite drink on a large touch screen
2. Beans drop from clear hoppers and are ground fresh in seconds
3. Fast Cup creates a drip-style flavor and excellent cup clarity, filling most large cups in about 30 seconds from button push to takeaway.
4. Three large 3lb+ bean hoppers provide enough holding capacity for over seventy 16oz cups of coffee each

With three bean selections and options for hot and iced coffee, Fast Cup delivers more options from a single platform.

Additional Features

9.1" cup clearance accommodates most travel cups with visual cues and lighting for cup placement

USB back-up and restore for machine configuration/recipe settings and cloning for multiple locations

BUNNlink® remote connectivity to manage and care for your fleet

Intelligent Technology Eases Labor Demand

Reduce the number of operator touches per day with three large 3lb+ bean hoppers that provide enough capacity to make seventy cups of coffee, each. The large bin holds the spent grounds from up to fifty beverages, while the through-counter grounds option allows for an even greater capacity. No paper filter to replace and Picture Prompted Cleaning™ on the touch screen ease training and maintenance routines.

Practically No Coffee Waste

The bean-to-cup system delivers single cups of fresh coffee, ensuring all your beans are brewed into your customer's cup. This complements dayparts with varying demand for coffee.

Build Your Coffee Menu with Hot & Iced Drip-style Coffee

Fast Cup offers an expanded selection of drinks, including options for both hot and iced coffee.

The iced coffee option cools freshly brewed coffee as it dispenses, making it perfect to pour over ice without watering down your beverage.

Configurable Touch Screen

Promote your brand by uploading graphics and videos for display on the large 10" industrial glass touch screen. Features a swipe function to allow the customer to easily navigate drink selections. Manager/crew member and tech sub-menus are also accessible from this screen.

ADA Friendly

ADA keypad and steep screen viewing angle welcomes all customers.

Cup Clearance

9.1" cup clearance accommodates most travel cups with visual cues and lighting for cup placement.

Profit & Waste Calculators

Use your numbers on our exclusive Profit and Waste Calculators for profitability and payback scenarios. Contact your BUNN Representative to learn more.
