

VirtualTOUCH™

*Tech-enabled Touchless
Beverage Dispensing*

Introducing BUNN VirtualTOUCH, a touchless beverage dispensing experience. Now your customers can conveniently select and dispense a beverage without having to touch a machine.

- Powered by BUNNlink®, cloud-based solution
- Fully automated touchless coffee experience via smartphone
- Access to full beverage menu
- Intuitive step-by-step instructions
- Reduce shared contact points

HOW IT WORKS

Simply scan a QR code using a smartphone. You will be taken to a mobile web page where you can make a drink selection, follow simple prompts on your mobile device, and watch the drink progress unfold on your equipment's screen.

WHAT YOU NEED

BUNNlink hardware and annual subscription available with new equipment or a field upgradeable service kit. You will also need the latest VirtualTOUCH Dispense software update installed.

Compatible Equipment

- Sure Immersion® 220
- Sure Immersion® 312
(shown above)
- Fast Cup®

Additional models coming soon.
