### CROSS REFERENCE GUIDE LEGEND

Each letter and numeral in the model number represents a specific component of the water filter. Use the following example as a guide to identify each feature **55 = gallons NSF-rated capacity, (3) = GPM NSF-rated flow rate, .2 = micron rating (nominal)**

example: **WQ-55(3).2 Cartridge**

### PRODUCT DEFINITIONS:

- WQ = Multi-Point / Beverage Bar Products
- L = Limescale Inhibitor
- C = Chloramine
- S = Sediment Filter
- TEA = Tea Application
- ESP = Espresso Application
- SFTN = Water Softener
- Twin = Manifold allowing 2 Cartridges
- TRPL = Manifold allowing 3 cartridges

# POINT-OF-USE WATER FILTRATION REFERENCE CHART

### CROSS REFERENCE GUIDE LEGEND

Each letter and numeral in the model number represents a specific component of the water filter. Use the following example as a guide to identify each feature.

**35 = gallons NSF-rated capacity, (3) = NSF-rated flow rate, .2 = micron rating (nominal)**

example: **WEQ-35(3).2L CARTRIDGE**

### PRODUCT DEFINITIONS:

EQ = Easy Clear Quick Change  
 HP = High Performance Product Line  
 WEQ = Easy Clear Compatible Products  
 10 = 10,000 Gallon Capacity  
 25 = 25,000 Gallon Capacity  
 54 = 54,000 Gallon Capacity  
 70 = 70,000 Gallon Capacity  
 108 = 108,000 Gallon Capacity

L = Limescale Inhibitor  
 TEA = Tea Application  
 ESP = Espresso Application  
 SFTN = Water Softener  
 TWIN = Manifold allowing Two Cartridges  
 TWIN-SP = Manifold for Two Cartridges and "T" fitting for Scale-PRO
