BUNN®

1.5 Gal Titan TF Server

Heat retention without connection to electrical sources

1.5 Gallon Server: 22.9" H x 9.1" W x 13" D
(58.2cm x 23.1cm x 33cm)

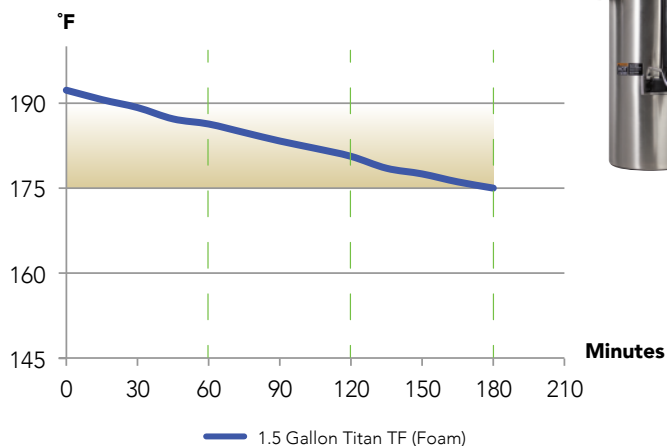

Capacity: 1.5 gallons

Ideal for high volume applications that will serve the entire contents of the dispenser within two hours. For applications requiring longer holding times, BUNN recommends Soft Heat® or ThermoFresh® Servers.

TEMPERATURE PERFORMANCE

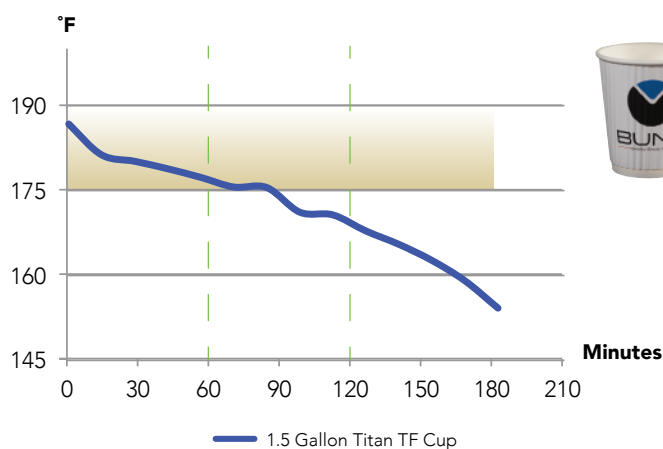

Holding Only

Footnote: - Brewer tank temperature set at 205° F
- Servers not preheated (preheating may increase temperature up to 5° F)
- 1.5 gallons of coffee brewed
- Temperature recorded in server

TEMPERATURE PERFORMANCE
