

## UNIFORMITY OF EXTRACTION

**7 Hole Sprayhead**

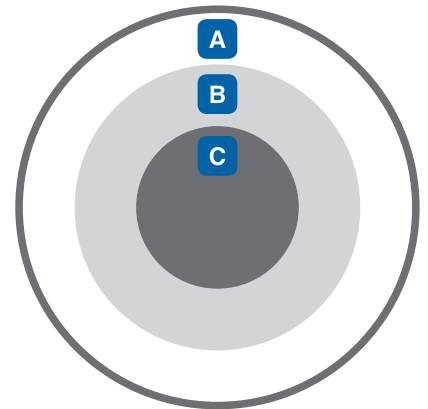

**“Flower” Pattern  
in Brew Funnel**

**Sprayhead Pattern  
Coverage**

Sprayheads are critical to determining how and where water comes in contact with the grounds

*Proper grounds saturation will provide a balanced extraction from A, B and C zones.*

For Technical Service, contact Bunn-O-Matic Corporation at 1-800-286-6070.

**Bunn-O-Matic Corporation**  
5020 Ash Grove Drive, Springfield, Illinois 62711

**AXIOM and Decanters with RFID Collar**

- For use with AXIOM BrewWISE Brewer
- Times coffee to the minute
- Makes product rotation easy – oldest first
- Simple to transfer if decanter breaks
- Long life – no battery to expire
- Inexpensive – available through KES
- Active warmer management saves energy
  - Use of RFID saves 18% in energy costs
 Versus previous generation BUNN brewers without RFID warmer management technology.

**Freshness Indicator Lights**

- GREEN = Ready to serve
- YELLOW = 7 minutes to expire
- RED = Expired / Empty

**Full brewed coffee level at fill line = 55 ounces**

**Coffee above 180°F**
